

Centralize Your Project's Documentation with eznetpay®

From streamlining your payment procedures to enhancing transparency for all of the projects and contracts you're managing, eznetpay® was designed to engineer efficiency. One thing that helps keep everything organized—and therefore more efficient—is the platform's documentation feature.

Using the documentation feature, anyone involved in a contract can upload and store files electronically. The system identifies who uploaded each document and when they uploaded it.

eznetpay.com
877-677-3711

This online archive offers many benefits:

- It gives you the ability to share documents at the contract and line-item levels.
- Project and contract details are easy to find when you need them.
- Physical space needed to store paper inside file cabinets and boxes is greatly reduced.
- Backup of your documents is provided as part of your eznetpay service!

Use eznetpay to archive anything you want to keep a record of, including:

- **W-9s**
- **Contracts**
- **Bills of lading**
- **Insurance certificates**
- **Backup invoices**
- **Project photos**

To find out more about document archival using eznetpay, or any of its other benefits—like giving you the ability to earn prompt-pay discounts, eliminating red tape and simplifying processes—contact us today at **877-677-3711** or email us at **sales@eznetpay.com**.
