

Increase Hard-Dollar Savings with Prompt-Pay Discounts.

Happy you. Happy vendors.

With the efficiencies engineered by the eznetpay® platform, invoices are submitted almost instantly and lengthy approval chains are drastically shortened. These shortened payment timelines give you the opportunity to take advantage of prompt-pay discounts.

More prompt-pay discounts give you hard-dollar savings and the ability to stretch your budget dollars further than ever before. You'll get your discounts and your vendors will be paid quickly. It's a win-win relationship.

Better Reputation, Better Results

When you pay invoices quickly, your vendors can rely less on lines of credit and can negotiate better terms with their suppliers. They'll also spend less time managing their businesses. As your reputation for paying promptly spreads, vendors will seek your business more aggressively and the competition to earn your business will grow. In turn, you'll see higher quality results on your projects.

Never miss a prompt-pay discount again! eznetpay makes it easy with our countdown timer so you know exactly how many days you have left to capture your discount.

How Does It Work?

Take a closer look at how eznetpay improves and abbreviates the average invoicing process.

INSTANT ACCESS

eznetpay eliminates mailing and interoffice time from the conventional invoicing method. Everyone in the approval chain can review, approve and add documentation the information online and in real time—24 hours a day. Valuable time and resources are saved for other priorities.

STRAIGHTFORWARD AND PAPERLESS

At the start of your project, each person's responsibilities are predetermined. Digital signatures and instant email status notifications can shrink what could've been a weeks-long process down to minutes—and without mounds of paper. Manual follow-up is eliminated and all parties involved can view project events in real time.

IMPROVED ACCOUNTABILITY

One of the barriers of earning prompt-pay discounts is knowing when the clock starts and stops for the timeframe specified to earn the discount. eznetpay's patented process includes digital signatures that create time-date stamps, showing who did what and when. All stakeholders (vendors, subcontractors, agencies, etc.) know the current status of the approval process.

AUTOMATED FINANCIAL RELATIONSHIP

You will no longer find yourself wasting time manually checking in with others on the phone or through email. eznetpay automatically updates data and notifies each person of the payment-process status.

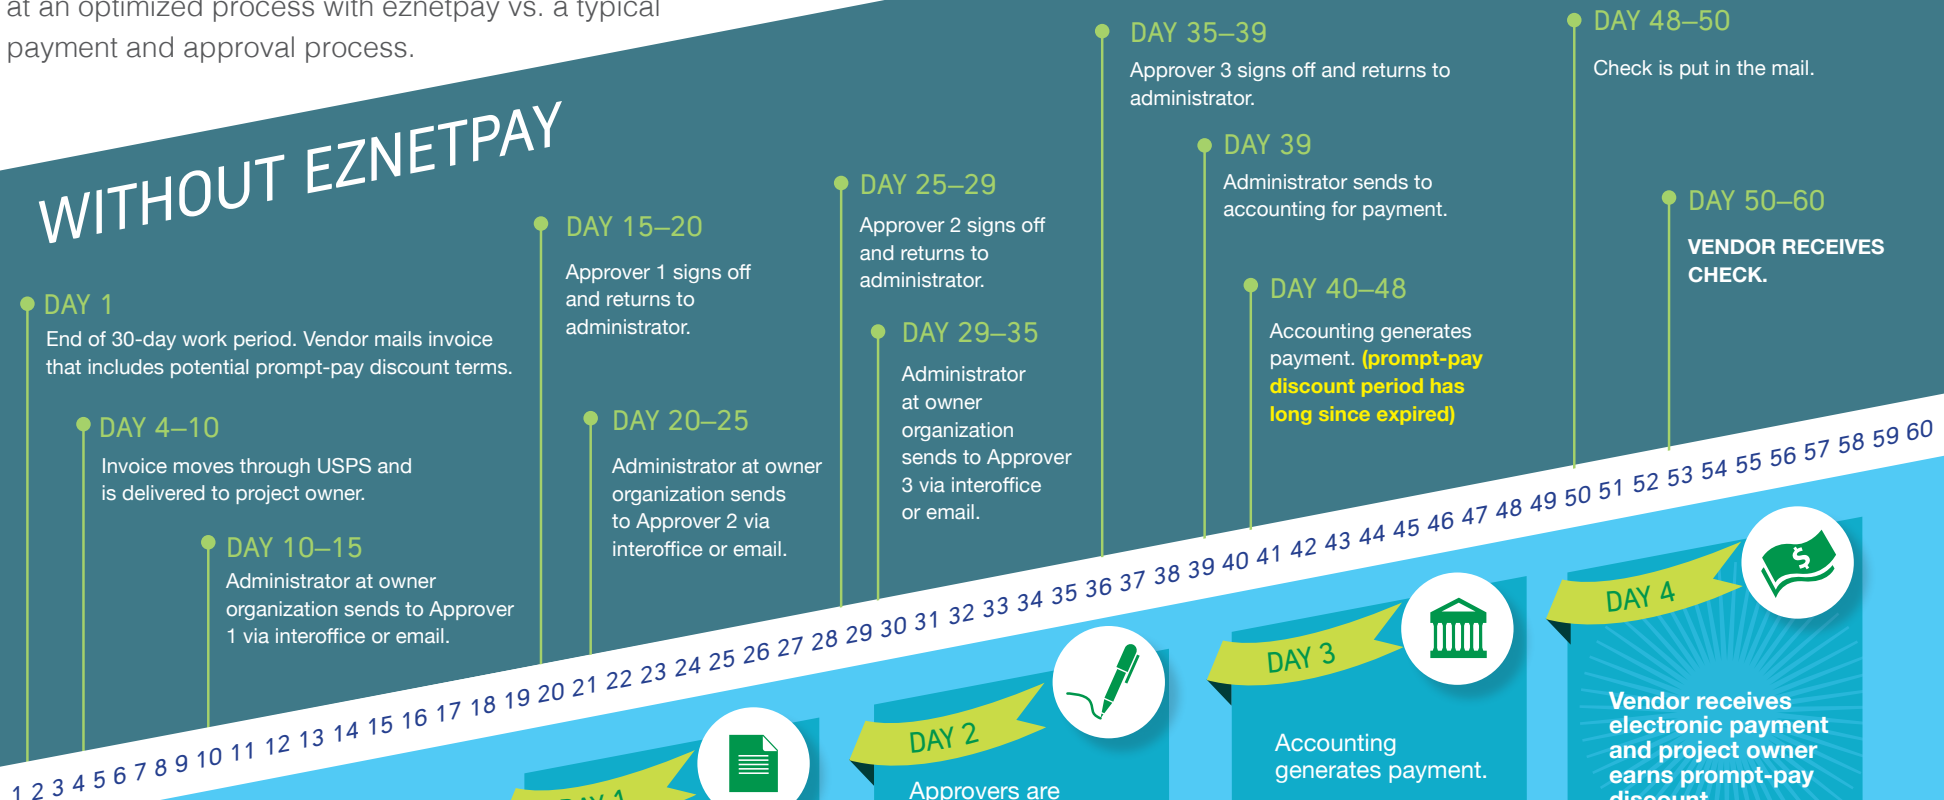

TRANSPARENT PAYMENT PROCESSING

Transactions are processed quickly and securely once approval documentation has been received from each party. Electronic payment is sent directly to the payee's bank account using the ACH network backed by Wells Fargo Treasury Services. The payer and payee will both receive an email acknowledging the transfer of funds.

Experience Unprecedented Efficiency

With the efficiency of eznetpay, users can cut payment and approval times down from weeks to days ... sometimes even hours. Take a look at an optimized process with eznetpay vs. a typical payment and approval process.

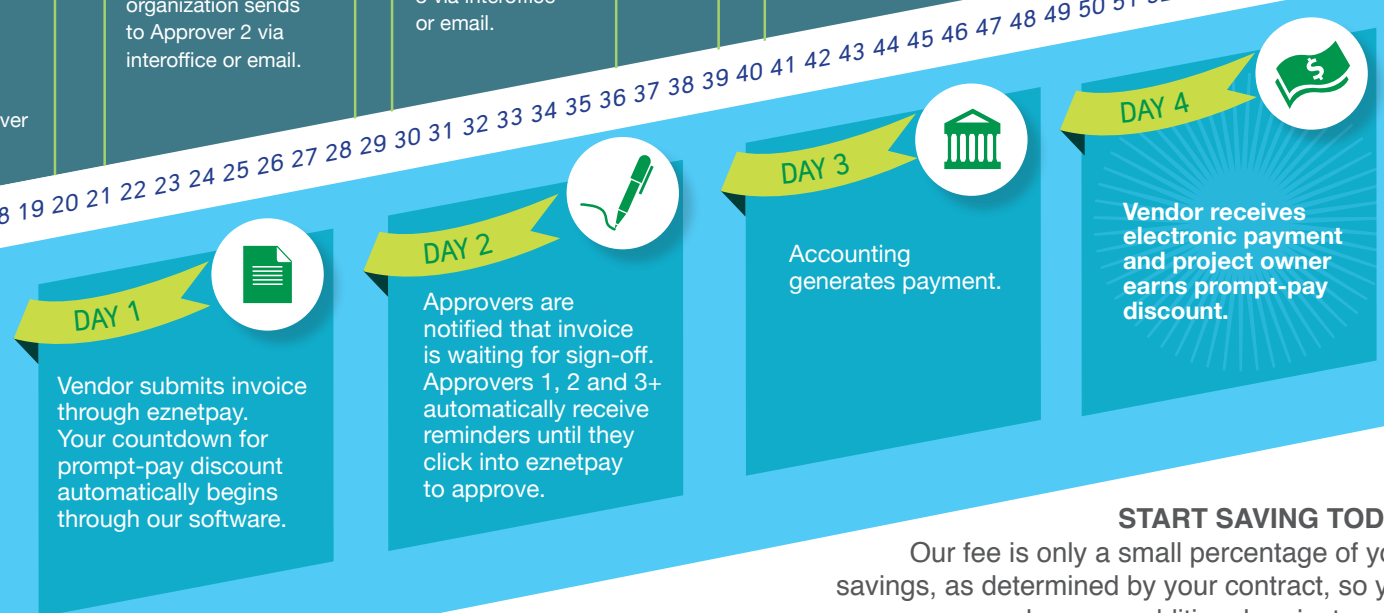

WITHOUT EZNETPAY

WITH EZNETPAY

By using eznetpay, The School District of Beloit saved 1.6% of its eligible total contract costs.

How much could your organization save?

START SAVING TODAY

Our fee is only a small percentage of your savings, as determined by your contract, so you have no additional project costs.
